The difference is in the detail

**TITAN-DS**  
QUALITY REINFORCED

Your new windows and doors represent a significant investment in your property and, if chosen well, will enhance its appearance, improve security, reduce heating bills and probably increase its value. So it's worth taking a little time to look closely at what TITAN-DS has to offer.

Authentic glazing bars

Authentic 'Horns'

Bay with lead design

Available in white, black, gold, polished chrome or satin chrome

## The difference is in the detail

You may be surprised by how many options are available with TITAN-DS that ensure your new windows and doors look and perform exactly as you want them to. This brochure offers a brief introduction to TITAN-DS, but please ask our experienced team about the differing choices available within the range.

The TITAN-DS brand sets the standard for strength, aesthetics, thermal performance, ergonomic design and genuine low maintenance and is synonymous with quality and durability. You can order your new windows and doors safe in the knowledge that they are regularly and independently tested and manufactured to all the latest standards and performance criteria.

## Design

Our advisor will help you decide on the best design of window to suit your home and lifestyle. The extensive TITAN-DS range covers all options including open out, open in 'tilt & turn', traditional looking sliding sash, and a clever 'mock' sliding sash window. There's even a range of authentic looking, textured, woodgrain finishes to choose from; ask to see our full range.

Your choice of door design can have an enormous effect on the look of your home so it's worth taking some time to look carefully at what's available. The TITAN-DS range includes the latest doors for main front and rear entrances which combine traditional looks with modern performance. You may want to have French Doors which give the maximum possible clear opening into the garden and with TITAN-DS both doors are operated by their own handle and locked with a single key. If you have a larger opening you may want to consider sliding patio doors or even sliding-folding doors that can really bring the outside in.

## Glass

Modern glass technology has many benefits to offer with a wide choice available in the TITAN-DS selection. All TITAN-DS windows

and doors have an invisible coating that actually reflects heat back into your home rather than letting it escape. We can also help you save even more on your heating bills by filling the cavity between the glass with a special insulating Argon gas.

If you want to make more of a feature of the glass in your new windows or maybe you want to replicate an existing look then TITAN-DS is the right choice. You can have diamond or square lead, traditional stained glass fan-lights or georgian style bars. For a truly authentic look you can also have georgian bars fixed to the surface of the glass to give the appearance of separate panes. Of course we will advise you where safety glass may be needed and can help you make the right decisions.

## Security

Everyone wants to feel safe and secure in their home so we've incorporated the strongest locks into the TITAN-DS windows and doors. All our windows have six locking points as standard with strong metal keeps, double claw locks and shootbolts. All our doors have multiple hook locks and extra reinforcing with a wealth of security features. Additional features can be added to TITAN-DS windows and doors to give you a Police Preferred Specification 'Secured by Design' product that meets the industry's most demanding security standards.

## Energy Efficiency

Whether you just want to save on your heating bills or want to help save the planet TITAN-DS windows offer the very best in energy efficiency. Around 20% of all heat loss in uninsulated homes is through windows so you'll be pleased to know all TITAN-DS windows have been independently tested by the British Fenestration Ratings Council and attributed with a Window Energy Rating (WER) Certificate to confirm their performance.

Whatever your requirement TITAN-DS products will give you total satisfaction – Guaranteed!
